(Unaudited - Expressed in Canadian dollars)

Notice of no Auditor Review of Interim Financial Statements

Under National Instrument 51-102, Part 4, subsection 4.3(3)(a), if an auditor has not performed a review of the interim financial statements, they must be accompanied by a notice indicating that the consolidated financial statements have not been reviewed by an auditor.

The accompanying unaudited interim consolidated financial statements of the Company have been prepared by and are the responsibility of the Company's management.

The Company's independent auditor has not performed a review of these interim consolidated financial statements in accordance with standards established by the Chartered Professional Accountants of Canada for a review of interim financial statements by an entity's auditor.

The accompanying notes are an integral part of these condensed interim consolidated financial statements

1. Nature of operations

Encanto Potash Corp. ("the Company" or "Encanto") was incorporated under the laws of British Columbia, Canada, in 1986. The Company's corporate head office is located at 3123-595 Burrard Street, Vancouver, BC.

Encanto is an exploration and development company focused on potash properties in the Province of Saskatchewan. The Company is primarily focused on the development of potash mineral deposits located on the Muskowekwan First Nation reserve lands located approximately 100 km north of Regina, Saskatchewan. The Company is a reporting issuer in the provinces of Alberta, British Columbia, Saskatchewan and Ontario and trades on the TSX Venture Exchange ("TSXV") under the trading symbol "EPO".

2. Going concern

These consolidated financial statements have been prepared on a going concern basis, which assumes that the Company will be able to meet its obligations and continue its operations for the next twelve months. Realization values may be substantially different from carrying values as shown and these financial statements do not give effect to adjustments that would be necessary to the carrying values and classification of assets and liabilities should the Company be unable to continue as a going concern. Such adjustments could be material.

At September 30, 2017, the Company had a working capital deficit of $18,800,655 has not yet achieved profitable operations, has commitments due in the coming fiscal year and had an accumulated deficit of $60,631,182 since inception and expects to incur further losses in the development of its business, all of which indicate the existence of a material uncertainty that may cast significant doubt upon the Company's ability to continue as a going concern and, therefore, that it may be unable to realize its assets and discharge its liabilities in the normal course of business.

The Company's ability to continue as a going concern is dependent upon its ability to obtain the necessary financing to develop its mineral property interests and to meet its ongoing levels of corporate overhead and discharge its liabilities as they come due. As part of its ongoing strategic plan the Company is exploring alternate financing opportunities including equity financings, debt financings and strategic partner arrangements. Although the Company has been successful in the past in obtaining financing, there is no assurance that it will be able to obtain adequate financing in the future or that such financing will be on terms advantageous to the Company.

3. Basis of presentation

These condensed interim consolidated financial statements for the three and nine months ended September 30, 2017 have been prepared in accordance with IAS 34 Interim Financial Reporting. They do not include all disclosures that would otherwise be required in a complete set of financial statements and should be read in conjunction with the Company's December 31, 2016 annual consolidated financial statements which have been prepared in accordance with International Financial Reporting Standards as issued by the International Accounting Standards Board ("IFRS"). The condensed interim consolidated financial statements have been prepared under the historical cost convention.

These financial statements were approved by the board of directors on November 23, 2017.

The condensed interim consolidated financial statements have been prepared using accounting policies consistent with those used in the Company's December 31, 2016 annual audited consolidated financial statements.

4. Accounting standards

New standards and amendments effective for the first time
The Company has adopted the new and revised standards and interpretations issued by the IASB listed below effective January 1, 2017. The adoption of this standard and amendment did not have a material impact on the condensed interim consolidated financial statements of the Company

a) IAS 7 Statement of Cash Flows
In January 2016, IASB amended IAS 7, "Statement of Cash Flows", The amendments require that the following changes in liabilities arising from financing activities are disclosed (to the extent necessary): (i) changes from financing cash flows; (ii) changes arising from obtaining or losing control of subsidiaries or other businesses; (iii) the effect of changes in foreign exchange rates; (iv) changes in fair values; and (v) other changes. One way to fulfil the new disclosure requirement is to provide a reconciliation between the opening and closing balances in the statement of financial position for liabilities arising from financing activities. Finally, the amendments state that changes in liabilities arising from financing activities must be disclosed separately from changes in other assets and liabilities.

Accounting standards issued but not yet effective
The standards and interpretations that are issued up to the date of issuance of the Company's financial statements and applicable to the Company, but were not effective during the three and nine months ended September 30, 2017, are disclosed below. The Company intends to adopt these standards when they become effective.

a) IFRS 9 Financial Instruments
In July 2014, the IASB issued the final version of IFRS 9 Financial Instruments bringing together the classification and measurement, impairment and hedge accounting phases of the IASB's project to replace IAS 39 Financial Instruments: Recognition and Measurement. IFRS 9 retains but simplifies the mixed measurement model and establishes two primary measurement categories for financial assets: amortized cost and fair value. IFRS 9 also amends some of the requirements of IFRS 7 Financial Instruments: Disclosures, including added disclosures about investments in equity instruments measured at fair value in OCI, and guidance on financial liabilities and derecognition of financial instruments. The mandatory effective date of IFRS 9 would be annual periods beginning on or after January 1, 2018, with early adoption permitted. The Company has initially assessed that there will be no material reporting changes as a result of adopting this new standard, however, there may be enhanced disclosure requirements.

b) IFRS 15 Revenue from Contracts with Customers
This standard will replace IAS 18 Revenue and IAS 11 Construction Contracts and related interpretations. It provides a more detailed framework for the timing of revenue recognition and increased requirements for disclosure of revenue. It uses a control-based approach to recognize revenue which is a change from the risk and reward approach under the current standard. The mandatory effective date is for annual periods beginning on or after January 1, 2018. The Company has initially assessed that there will be no material reporting changes as a result of adopting this new standard.

c) IFRS 16 – Leases
This standard replaces IAS17-Leases and requires lessees to account for leases on the statement of financial position by recognizing a right to use asset and lease liability. The mandatory effective date is for annual periods beginning on or after January 1, 2019. The Company has initially assessed that there will be no material reporting changes as a result of adoption this new standard.

5. Critical accounting estimates and judgments

There have been no material revisions to the nature of judgments and estimates of amounts reported in the Company's December 31, 2016 annual consolidated financial statements.

6. Performance shares

On May 30, 2016 the Company entered into a finder's agreement whereby the Company issued 20,000,000 performance shares. A total of 8,000,000 shares were unrestricted and were recorded to corporate development consultants on the statement of comprehensive loss valued at $880,000. The remaining 12,000,000 shares were issued but were held under an escrow agreement until the Company achieved certain performance milestones described below. The Company incurred $14,666 of cash share issuance costs in relation to the issuance of the performance shares.

The performance milestones were such that a total of 6,000,000 escrow shares would be released when the Company has successfully delivered its first shipment of potash to Metals and Minerals Trading Company of India ("MMTC") pursuant to a Memorandum of Understanding with MMTC dated October 9, 2015, as amended March 10, 2016, and 6,000,000 escrow shares or, if 6,000,000 escrow shares have not been released pursuant to above, then 12,000,000 escrow shares would be released when the Company entered into a definitive off-take agreement with MMTC (the "Off-Take Agreement") or another entity for the long-term supply of potash.

On December 30, 2016 the Company entered into an Off-Take Agreement with the National Federation of Farmers' Procurement Processing & Retailing Co-operatives of India Ltd. ("NACOF"). The Off-Take Agreement provides for the supply of a minimum of 5,000,000 tonnes per year for a guaranteed period of twenty years for muriate of potash.

Upon signing an Off-Take Agreement on December 30, 2016 the remaining 12,000,000 escrow shares were recorded to corporate development consultants on the statement of comprehensive loss valued at $840,000.

Upon signing the Off-Take Agreement, the Company was also required to pay a success fee under a consulting agreement with a related party of US$5,500,000 (September 30, 2017 – CDN$ 6,864,000 and December 31, 2016 – CDN$7,384,850) in cash and 15,000,000 common shares (valued on date of agreement at $1,050,000) of the Company, subject to regulatory approval. The Company had accrued these costs to corporate development consultants on the statement of comprehensive loss as at December 31, 2016. As at September 30, 2017 the Company has not received regulatory approval or paid CDN$6,614,000 of the cash payment. During the three and nine months ended September 30, 2017 the Company has recorded a gain on foreign exchange of $273,500 and $521,000.

7. Mineral property interests – Schedule 1

a) Muskowekwan First Nation project

On October 22, 2010, through its wholly-owned subsidiary, Encanto Resources Ltd. ("ERL"), the Company and Muskowekwan First Nation ("MFN") and their corporate nominee, Muskowekwan Resources Ltd. ("MRL"), signed an agreement (the "JVA") for the purpose of developing potash mineral deposits on MFN reserve lands (the "MFN Project") in Saskatchewan. The parties have further agreed to jointly appoint a management committee to supervise the business affairs being conducted pursuant to the JVA.

On October 22, 2010, the Company also signed development fee, operating and royalty agreements with MFN and MRL. Pursuant to the development fee agreement, MFN will be paid a fee totalling $1,000,000 based on certain milestones being achieved. During the nine months ended September 30, 2017 the remaining $115,000 was expensed as the MFN Project was granted a mining lease by the Federal Government. Under the operating agreement, the

(Unaudited - Expressed in Canadian dollars)

Company is the appointed operator with responsibility to carry out the exploration and development program planned for the property interests on the MFN Project.

b) Chacachas and Ochapowace First Nation prospects
During the year ended December 31, 2016 an impairment write down of $53,035 was taken in relation to the Ochapowace First Nation prospect as the Company has no plans for the property in the near future.

8. Convertible debenture

On March 1, 2016 the Company issued the 2016 Debenture for the principal sum of $7,700,000. The 2016 Debenture bears interest at 7.5% and was repayable on September 1, 2017 or could have been converted into shares at the holder's option at a rate of $0.10 per convertible debenture share. The Company and the 2016 Debenture holders are negotiating a restructuring of the 2016 Debenture. The Company has continued to accrue interest on the 2016 Debenture until such time as the terms of the restructuring are finalized.

For accounting purposes, the 2016 Debenture has been separated into the liability and equity components using the effective interest rate method. The fair value of the liability component of the 2016 Debenture at the time of issue was calculated as being equivalent to the discounted cash flows for the debentures assuming an effective interest rate of 20%. The effective interest rate was based on the estimated rate for a debenture without a conversion feature. The fair value of the equity component (conversion feature) was determined at the time of issue as the difference between the face value of the convertible debenture and the fair value of the liability component. The debt component is being accreted up to the face value to the statement of comprehensive loss over the life of the 2016 Debenture.

	Liability Component	Equity Component
	$	**$**
Balance, December 31, 2016	7,196,556	1,005,000
Accretion of discount	503,444	-
Maturity	-	(1,005,000)
Balance, September 30, 2017	**7,700,000**	**-**

9. Share capital

a) Authorized:
Unlimited common shares without par value
100,000,000 Class A non-voting preference shares, par value $10 each
100,000,000 Class B non-voting preference shares, par value $50 each

b) Financings:
On July 13, 2016 the Company closed the second tranche of the private placement in the amount 342,000 units at a price of $0.105 per unit for additional gross proceeds of $35,910. Each unit consists of one common share and one warrant, each warrant entitling the holder to purchase one common share at a price of $0.16 per share on or before January 13, 2019. The Company incurred share issuance costs of $3,546 with respect of this placement.

On June 3, 2016 the Company closed the first tranche of a private placement in the amount of 24,503,000 non-flow-through units at a price of $0.105 per unit for gross proceeds of $2,572,815. Each unit consists of one common share and one warrant, each warrant entitling the holder to purchase one common share at a price of $0.16 per share on or before December 3, 2018. Additionally, a total of 3,125,000 flow-through common shares were issued at a price of $0.16 per share for gross proceeds of $500,000. The Company incurred share issuance costs of $205,489 with respect of this placement.

(Unaudited - Expressed in Canadian dollars)

c) Stock options

The balance of options outstanding and related information for the nine months ended September 30, 2017 is as follows:

	Number of options	Weighted average exercise price (per share)	Weighted average remaining life (years)
Balance, December 31, 2016	30,320,000	$0.19	4.33
Granted	13,750,000	$0.14	
Expired	(4,575,000)	$0.20	
Balance, September 30, 2017	**39,495,000**	**$0.17**	**5.99**

During the three and nine months ended September 30, 2017 the Company recorded share-based payments expense of $nil and $1,279,811 respectively (2016 - $nil and $nil). The weighted average fair value of the options granted during the period was $0.09. During the nine months ended September 30, 2017 all options granted vested immediately upon grant. The fair value of the options granted during the period was determined using an option pricing model using the following weighted average assumptions: risk free rate 1%; expected life 5 years; forfeiture rate nil; volatility 85% and a dividend rate of nil.

The balance of options outstanding as at September 30, 2017 was as follows:

Exercise price	Weighted average remaining life (years)	Options outstanding and exercisable
$0.14	9.30	13,750,000
$0.15	3.17	4,780,000
$0.17	4.14	12,840,000
$0.20	6.19	2,700,000
$0.25	5.28	475,000
$0.26	3.92	2,850,000
$0.30	4.75	2,100,000
		39,495,000

d) Share purchase warrants

The balance of warrants outstanding and related information for the nine months ended September 30, 2017 is as follows:

	Number of warrants	Weighted average exercise price (per share)	Weighted average remaining life (years)
Balance, December 31, 2016 and September 30, 2017	48,857,500	$0.18	1.05

(Unaudited - Expressed in Canadian dollars)

The balance of warrants outstanding as at September 30, 2017 was as follows:

Exercise price	Weighted average remaining life (years)	Warrants Outstanding
$0.16	1.18	24,845,000
$0.17	0.59	18,427,500
$0.30	2.03	5,585,000
		48,857,500

During the three months ended September 30, 2017 a total of 5,535,000 warrants with an exercise price of $0.30 expiring October 9, 2017 were extended to an expiry date of October 9, 2019 and a total of 50,000 warrants with an exercise price of $0.30 expiring October 23, 2017 were extended to an expiry date of October 23, 2019.

e) Flow-through shares

The Company is committed to incur qualifying Canadian exploration expenses as defined under the *Income Act, Canada* ("Qualifying CEE") in the amount of $2,235,000 with respect to the flow-through share financings completed during the fiscal year ended December 31, 2016. The expenditures are committed to be incurred before December 31, 2017. None of the Qualifying CEE will be available to the Company for future deduction from taxable income.

During the nine months ended September 30, 2017 the Company renounced $2,250,000 of flow-through share proceeds to the respective flow-through share subscribers with an effective date of renunciation of December 31, 2016.

10. Finance expenses

During the three and nine months ended September 30, 2017 and 2016 the Company incurred the following finance expenses related to the convertible debentures.

	Three months ended September 30		Nine months ended September 30	
	2017	**2016**	**2017**	**2016**
	$	**$**	**$**	**$**
Amortization of issuance costs	-	-	-	4,251
Accretion of discounts	167,912	150,578	503,444	364,218
